

TEAM LEAD · HEAD OF THE TEAM

Yuri Takashi

Yuri runs the team and owns technical direction and delivery on every project: breaking the work into milestones, choosing the architecture, reviewing the code and making sure what we promise is what ships.

12 Products shipped

19 Technologies used

6 Client countries

Brazil, United States,
Venezuela, Germany,
Indonesia, Denmark

3 Teammates worked with

Michael, Ginny, Daniel

ROLE IN OUR PROCESS

01

Scope & plan

YURI + EDUARDO

Yuri shapes the technical approach. You get a written proposal with milestones, a timeline and a clear price.

02

Launch & handover

WHOLE TEAM

We deploy, document and hand over the source code, then stay available for support and future work.

PROJECT EXPERIENCE (12)

NovusAI

AI AGENT PRODUCT

Enterprise AI agents for ServiceNow. Teams describe the work in plain English, and the agents plan, build and verify it on their instance: business rules, script includes, catalog items, flows, dashboards and integrations, with human approval on every change.

- Three agents (Business, Analyst and Developer), each with its own permission ceiling
 - Approval step on every write, with writes off until explicitly enabled
- Up to 52 ServiceNow tools, limited by the tools each agent gets and the roles its account holds
 - Runs inside the customer's network on the customer's own LLM

STACK Next.js, React, Tailwind CSS, Radix UI, AWS CloudFront, LLM agents

Swim Rankd

WEB PLATFORM

A gamified performance platform for competitive swimmers, parents and coaches. Race results turn into personal bests, rankings, badges and a fantasy league the whole family can play.

- Automatic PB detection per event and course, with time-standard bonuses (BB to AAAA)
 - Fantasy teams scored live from real meet results
- 21-tier level system and leaderboards filtered by age, gender and club
 - Separate experiences for swimmers, parents and admins

STACK Next.js, React, Tailwind CSS, Vercel

Water Guard

MONITORING SYSTEM · BRAZIL

A system for monitoring drinking-water quality across fountains, taps, wells and tanks. Every collection point gets a QR code, readings are charted in real time, and staff are alerted on WhatsApp the moment a value leaves its safe range.

- Real-time charts for pH, free chlorine, temperature and TDS
 - Automatic WhatsApp alerts on out-of-range readings
- QR-code identification for every collection point
 - Secure, login-protected management dashboard

STACK Next.js, React, Supabase, Tailwind CSS, Vercel

LindenTree Advisory

BRAND WEBSITE · UNITED STATES

The website for a hospitality advisory firm that guides hotel openings, brand strategy and asset management. Its current hotel projects set the tone from the first screen, with a quiet, editorial feel that suits a luxury audience.

- Full-screen, cinematic slideshow of client properties
 - Light and dark themes
- Client, founder, careers and process sections
 - Responsive layout tuned for phones and large screens

Kanoa

BOOKING MARKETPLACE · VENEZUELA

A marketplace for booking tours, trips and activities across Venezuela, from Angel Falls expeditions to beach days and car rentals. Travelers search, save and pay in one place, and local operators list their experiences and take bookings online.

- Browse by category and destination, with wishlist, cart and booking history
- English and Spanish, with prices in US dollars or euros
- Checkout with Stripe, Pago Móvil, Binance Pay or Zelle
- Google sign-in, and installable on phones as a web app

OneClick

PROJECT MANAGEMENT SAAS · GERMANY

A project-management platform for agencies, IT teams and consultancies. Tasks, time tracking, budgets and team chat live in one place, and every customer gets an isolated workspace with its own data, users and billing.

- Kanban, table and Gantt views on the same data, with task dependencies and milestones
- Project chat, versioned documents, whiteboards and a one-click AI status report
- Timers, budget burn rate with runway forecasts, and weekly capacity planning
- Role-based permissions, 13+ languages and a full audit log of every change

Gaming Eminence

MARKET INTELLIGENCE

Market intelligence for B2B suppliers selling into regulated gambling markets. Suppliers see which operators hold which licences, which brands they run and who already supplies them, with a source behind every claim.

- Operators, brands, licences and regulators mapped across 62 regulated markets
- Qualification scores that match operators against a supplier's own criteria
- Gold, Silver and Bronze evidence tiers, from regulator registers to company websites
- Every claim linked to its source, evidence tier and verification status

Wassernachweis

PUBLIC-SECTOR PLATFORM · GERMANY

Digital groundwater-extraction records for the district of Grafschaft Bentheim. Farmers log their well readings on any device instead of on paper, and the district sees every extraction, quota and water-table drop in one place, ready for audit.

- Three-step reading wizard for the start, interim and final meter readings
- Annual quota per well, with progress toward each farmer's limit
- Automatic calculation of extracted volume and water-table drawdown
- Separate farmer and district portals, an audit trail on every entry and CSV export

CARL

INVESTMENT APP · UNITED STATES

An investing app that opens quant hedge-fund strategies to individual investors. Accredited US investors build and test their own portfolio of strategies, choose their level of risk and follow performance in real time.

- Strategy browser with historical return, volatility and S&P 500 correlation for each fund
- Portfolio builder: pick a risk level and allocate capital across strategies
- Live portfolio with allocation charts, time-range filters and simulations
- Five-minute sign-up, deposits and full transaction history

STACK iOS, Android TEAM Michael LIVE App Store · Google Play

Ajaib

TRADING & INVESTING APP · INDONESIA

An all-in-one investing app for Indonesian stocks, mutual funds, crypto, bonds and US stocks. Accounts open fully online in about five minutes, and trading is licensed and supervised by Indonesia's OJK and Bappebti.

- Fast order execution with a live order book and day-trading mode
- US stocks bought in rupiah from \$1, and e-IPO orders with no transaction fee
- Stock screener, stop-loss and take-profit orders, and margin trading
- Fully online account opening and verification

STACK iOS TEAM Michael LIVE App Store

Rain Gauge

WEATHER APP · DENMARK

A rain gauge in your pocket, with no hardware needed. Rain Gauge shows how much rain has fallen at every saved location, for farmers, work sites, gardeners and homeowners.

- Live rainfall totals per location, from the last 24 hours to the last 30 days
- Day-by-day calendar, monthly and yearly history, and year-over-year charts
- Multiple saved locations on a satellite map
- Rain radar map with past and forecast playback

STACK iOS, Mapbox TEAM Michael LIVE App Store

A Spanish-language social network and marketplace for creators. Fans follow creators, buy from their shops, commission custom work and message them directly, and creators get paid without intermediaries.

- Feed of followed creators with full-screen photos and video, likes and comments
 - Custom requests and direct messages between fans and creators
- Creator shops with cart, card checkout, order tracking and notifications
 - Verified profiles, reporting and two-way blocking, on the web and Android
